

MetroPCS has more dropped calls than Boost.

Southern California Area Coverage

Boost Coverage
(Unlimited Voice, Text, Web, and Walkie-Talkie Available)

Coverage map comparison based on public info as of 11/5/09. Maps are approximate geographic comparisons to each other and are not to scale; coverage can vary. ¹Requires text messaging feature.

Based on independent third party drive test data from Jul 08-Jun 09 for the 10 common Boost/MetroPCS markets within the top 50 most populous U.S. markets. Visit <http://www.boostmobile.com/about> for additional details.

Powered by the Nextel National Network. Boost Mobile coverage maps are high-level representations of approximate service. Coverage is not available everywhere, is subject to change and cannot be guaranteed, or without interruptions or delays (e.g., dropped calls, etc.).

See in-store materials or visit Boostmobile.com for additional details.
